

WHERE IS MY SHIPMENT?

The Division of Travel and Transportation is pleased to report the reinstatement of the “Where is My Shipment?” intranet website. This interactive service allows employees to track personal property shipments 24 hours a day, 7 days a week. “Where is My Shipment?” was temporarily interrupted during the implementation of the transportation module, ILMS—the Integrated Logistics Management System. You can once again track Household Effects (HHE), Unaccompanied Air Baggage (UAB), Privately Owned Vehicles (POV), and Consumables (CNS) as well as review the net and gross weights of your shipments, including those in storage (<http://almopsttm.a.state.gov/shipments/disclaimer.asp>).

The program includes information on shipments initiated since April 2006 and on all permanent (long-term) storage lots as well. Please allow 10 days from packing for air shipments and 21 days for surface shipments before attempting to establish the shipping status of your goods.
